Who We Are

We are known for providing effective business focused solutions that unlock the potential of our customers IT investment. Providing business and technology insight to clients, our consultants act as a catalyst to ensure that their IT technology foundation is able to meet future challenges - enabling them to become an Adaptive Enterprise

What We Do

For organisations undergoing significant change, we offer a team of trusted, skilled, and passionate consultants; proven methodologies; and solution innovation to consult, design, build, manage and maintain new or enhanced IT infrastructures in support of business initiatives. Our engagements result in reduced time to market, reduced risk, and reduced cost.

Overview

Over the years, the provision of programme and project management by Consensus Consulting has been key to the successful introduction of business systems by our clients.

We have taken responsibility for some of the highest profile and complex change initiatives for our clients, our business awareness and change management experience building an enviable track record of success.

Reworking an IT architecture or making fundamental changes to existing technology can put overwhelming strain on existing management resources as the day-to-day running of the business continues. Our infrastructure management services allow our clients to get their projects completed utilising our experienced programme and project managers without putting unworkable demands on their in-house resources.

Management Services

Reworking an IT architecture or making fundamental changes to existing technology can put overwhelming strain on existing management resources as the day-to-day running of the business continues. Our infrastructure management services allow our clients to get their projects completed utilising our experienced programme and project managers without putting unworkable demands on their in-house resources.

Interim Management

In addition to these services we offer a range of interim management options where we supply resource to meet the day-to-day requirements of an individual department or discipline within your organisation. We can provide people to undertake responsibilities such as CIO, IT Director and technical management focussed in the areas of technical support, service delivery, or operational services.

Project Management

We provide technical project management using a Project Office approach with industry standard tools and methodologies to deliver timely solutions to complex, technical problems. Our range of services includes audits of existing infrastructures, vendor and platform selection, software product analysis, technology assessment and market research.

Vendor Management

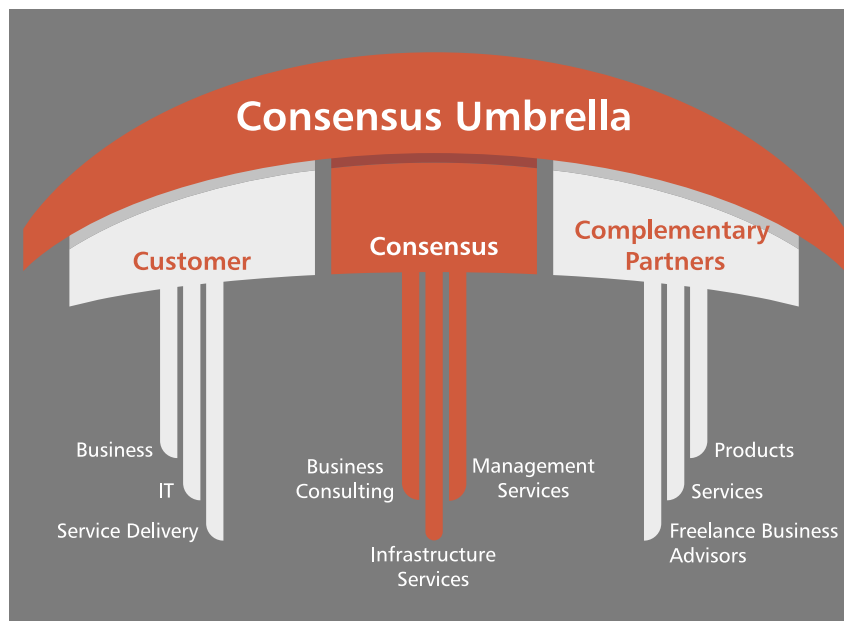

For your procurement needs we offer a vendor management service, including tender preparation (ITT, RFP) and management and supplier contract negotiation, covering a wide range of platforms. Consensus can also assist in the selection and deployment of services. We have a wide range of skills in complex multi vendor management. We can also provide pro-active advice on outsourcing and assist clients on implementation of changes to existing assets providing in-house benefits.

"We are the Catalysts for Positive Change."

Focused at the board level, our industry expertise allows companies to realise the potential of information in their organisations. Consultants working with key executives carry out evaluations that will directly affect the way in which you deliver new or improved products to your customers whilst maintaining control over costs. Recommendations span from strategy to architecture and design. Consensus can also manage any programme and project requirements arising from the recommendations and resource technical implementations.

What makes us different from other consultancies is that we do not only talk and advise - we actually provide project management and people that deliver the solution. We have an impressive track record of the successful delivery of solutions to complex technical problems. We commit to long-term relationships with our customers.
